

**ROADWAY IMPROVEMENTS MEMORANDUM OF UNDERSTANDING
BETWEEN THE COUNTY OF SANTA FE
AND THE CITY OF SANTA FE**

The City of Santa Fe (City) and Santa Fe County (County) enter into this Memorandum of Understanding (MOU) to address needed capital improvements of certain roadways within the Presumptive City Limit boundaries of Phase II Annexation. This MOU is effective as of the date of the last signature.

Recitals

1. The City, the County, and Las Soleras entered into a Settlement and Mutual Release of Claims (Settlement Agreement) on May 19, 2008;
2. On February 10, 2009 the City and the County entered into an Annexation Phasing Agreement that defined Phase II of Annexation (Phase II).
3. The Settlement Agreement defines certain areas of land to be annexed as the Presumptive City Limits, including Phase II;
4. The Presumptive City Limits contains many roadways that are currently operated and maintained by the County, which will become the maintenance responsibility of the City upon annexation;
5. Certain County-maintained roadways in the Presumptive City Limits are experiencing deferred maintenance that require improvements to bring them up to customary County maintenance standards;
6. The County uses a third-party pavement evaluation system called PASER that rates roadways on a 1-to-10 scale;
7. Customary County maintenance standards have produced a County roadway network with an average PASER rating of 6, which will be the minimal standard when turned over to the City.
8. If these improvements are not made without this MOU, the City would acquire ownership of certain roadways that would require immediate and substantial investment of City funds;
9. Ignoring or delaying needed road maintenance results in costly reconstruction;
10. The Settlement Agreement states it "shall not be construed to require the County to provide significant capital improvements to an existing road or construct a new road within the Areas to be Annexed in the absence of a separate written agreement by and between the City

and County that provides a means for financing the capital improvements" *Settlement Agreement*, p.6 (k); and

11. The MOU confirms the parties' commitment, cooperation, and recognition that partnering activities between governmental entities of similar purposes may produce public benefits beyond what can be produced separately.

Agreement

1. Roadway Improvements.

A. Prior to the City's acceptance of ownership and maintenance responsibility for roads within Phase II of Annexation, the County shall perform the roadway improvement and maintenance activities identified in "Annexation Phase II – Roadways to be Improved and Description of Improvement Activities," attached to this MOU as Exhibit A. Certain road improvements will exceed PASER level 6 for specific surfaced roads, identified in Exhibit A. The County shall determine in consultation with the City, the phasing and scheduling of the improvement activities, with the intent to accomplish all activities as quickly as funding allows.

B. Upon completion of the activities identified in Paragraph A for each individual roadway or roadway segment as listed in Exhibit A, the City and the County shall conduct a joint acceptance inspection.

The City may reject work not meeting the customary roadway and maintenance standards of the County and generate a punchlist annotating the deficiencies. Rejected work shall be redone immediately by the County at the County's expense. Upon acceptance of work by the City, the City and the County shall immediately execute a document that conveys ownership of the accepted roadway(s) or roadway segment(s) from the County to the City.

C. The parties acknowledge that the items of work identified in "Annexation Phase II – Roadways to be Improved and Description of Improvements" are minimal maintenance improvements that do not address structural, operational, capacity, and accessibility deficiencies.

D. The parties agree to make drainage improvements to Alameda Road in Phase II of Annexation. The parties agree to share the costs of such drainage improvements equally.

2. Term

This MOU shall terminate upon annexation of all of the roads in Exhibit A, unless terminated pursuant to Article 5. This MOU may be extended by the mutual written agreement of the parties.

3. Third Party Beneficiaries

This MOU does not create any third party beneficiaries.

4. Appropriations

This MOU is contingent upon sufficient appropriations and authorization being made by the parties. If sufficient appropriations are not granted, this Agreement shall terminate upon written notice.

5. Amendment

The parties may amend this MOU by mutual written agreement.

6. Conflict of Interest

No elected official, officer, employee or agent of the City or County shall have any personal financial interest in this MOU unless such financial interest is disclosed in advance to the City and County and neither party objects to that person's involvement in the MOU. Neither party shall employ, in the performance of this MOU, a person having a conflict of interest. This Article shall not unreasonably impede the parties desire to provide maximum opportunity for employment of local residents.

7. New Mexico Tort Claims Act

By entering into this Agreement, neither party shall be responsible for liability incurred as a result of the other party's acts or omissions in connection with this Agreement. Neither the City nor the County waive any defense or limitation of liability under New Mexico law or the New Mexico Tort Claims Act.

8. Dispute Resolution

In the event of any dispute between the parties regarding the enforcement or interpretation of this MOU, the parties agree to first mediate before a neutral mediator mutually agreed to and paid for by the parties.

9. Scope of the Agreement

This MOU supersedes all of the agreements and understandings between the parties concerning County roads in Phase II of Annexation.

10. Applicable Law.

This MOU shall be governed by the laws of the State of New Mexico.

11. Signatures.

This MOU shall be effective as of the date of the final signature.
